

# Keya Classroom 2020

Keya teachers are so excited to meet our new little friends! This year will be spent making plenty of good memories while learning and perfecting their skills in Cognitive, Physical, Social-Emotional, Language and the Approaches to Learning domains of child development. We will be focusing on learning the basics. Your child will be exploring numbers, colors, weather, seasons, and routines, while incorporating Dakota language and culture along the way.

Pidamaya for baring with us through these uncertain times and know that we are always here for your family. All of us in the Keya room hope to see you very soon in the classroom! Until then, stay happy and healthy!
